

TROVERIE

Bracelet Sizing Guide

How to Measure Your Wrist:

- 01** Print this **Bracelet Sizing PDF** to scale (100%). Make sure when the 'Print Settings' window pops up, you print with no zoom applied and on letter paper. This print-out will help you choose an appropriate bracelet size by giving you a physical sense of the varying ranges in size.
- 02** Cut out the provided ruler along the edges of the image.
- 03** Once the slit has been cut, slide the MM/IN side through as in the illustration below. The fit should be loose; enough space between the paper ruler and your wrist to fit a finger.
